You don't need to worry about high utility bills with the owned Solar System on this great home! Great home with 3 bedrooms 2 baths and 1400 square feet plus a loft area upstairs! There is an oversized 2 car detached garage. This is the perfect 4-H property with 2.87 acres that has room for horses, goats, chickens & cows. Lots of space for your R.V. vehicles. Close to Redding and Lake Shasta. Nice open floor plan.
